

## HelzersCreations.com General Detail Information

1. In your email include anything that is not apparent in your PHOTO, pant color, shoe color, Plumes, flag photo, type baton, mace, whistle, type instrument and its color.
2. We do NOT finish the backs of the ornaments, but do put a cape shaped piece on the back for lettering, the name, school initials and year. On the front we only add letters that are part of the actual uniform. Shoulder names are too small to letter.
3. Hair colors are approximate, and for female members, we put the hair up under the shako, unless directed to do differently. We can make the figures with shakos, berets, bandanas or no head covering. Just let us know.
4. Please keep in mind, that we have never seen this uniform or band member. Let us know what might be most important to you.
5. There can be an additional fee for uniforms with graded colors, graphics, non traditional designs, including kilts, tartans, body painting, and tattoos. You will be notified before we start on the ornament.
6. We do have a hair color chart below.

*Blonde*
